AVIVA

Key features of the
Pension Portfolio

Contents

You'll read references to 'Aviva', 'us' or 'we'. This means Aviva Pension Trustees UK Limited, the provider of your plan.

Helping you decide

The Financial Conduct Authority is a financial services regulator. They require us, Aviva, to give you this important information to help you to decide whether our Pension Portfolio is right for you. You should read this document carefully so that you understand what you are buying, and then keep it safe for future reference.

The purpose of this document is to help you to make an informed decision. However, we recommend that you discuss this with your adviser.

Pension Portfolio is administered through the Aviva Platform, an online portfolio management service. If you have any questions, please speak to your adviser.

Statement of demands and needs

A Pension Portfolio is a great way to save for life after work. It's designed to meet your demands and needs. It means you'll have a pot of money to help support you when you retire.

Please read this document with the **Pension Portfolio Terms and Conditions (LF01064)** so that you understand what you're buying. You should also read your illustration which will give you an idea of what you may receive when you retire.

You need to be comfortable that you understand the benefits and risks of this plan before deciding whether to invest. You should keep all these documents in a safe place.

What is the Pension Portfolio?

The Pension Portfolio is a self-invested personal pension (SIPP) providing a flexible, tax-efficient retirement plan for UK residents aged 18 or over.

It has one pre-retirement account where we place your pension payments and one or more post-retirement accounts from which you can make withdrawals.

It's provided through the Aviva Platform.

Is this plan right for me?

- This plan might be right for you if:
  - you want to invest for your retirement
  - you're aged 18 or over
  - you're a permanent UK resident or have earnings from overseas Crown employment which is subject to UK tax
  - you can afford the payments due
  - you're prepared to keep your funds invested until you're able to take benefits.
- Please note, you aren't a UK resident if you live in the Channel Islands or the Isle of Man.

Its aims

- To help you save for your retirement in a tax-efficient way.
- To give you the flexibility and a range of options to control how your pension pot is invested.
- To give you the control and flexibility to manage your benefits in retirement.
- To give you and your adviser access to information about your investments online.
- To give a beneficiary, as defined in the terms and conditions, the option of continuing to receive an income or, where applicable, taking a single payment from your pension pot on your death. If they live outside the UK, only a lump sum will be available to them.

Your commitment

- To keep the services of an adviser. You'll need an adviser if you want to make certain changes to your Pension Portfolio, for example, changing your investment choices. If for any reason you're no longer being advised by your adviser, there are some restrictions and conditions you'll need to be aware of. Please see the **Pension Portfolio Terms and Conditions** for more information, including details of changes you can make to your investments in these circumstances.
- To make regular payments of at least £100 a month including tax relief or a single payment of at least £5,000 including tax relief into the Pension Portfolio and/or to transfer in benefits from another pension scheme. There's no commitment to continue making payments into your Pension Portfolio. There's no penalty for stopping or reducing payments.
- To regularly review your investments and the amount of withdrawals or payments you make. Your adviser can help you with this.
- To have enough money in your cash account to cover Aviva's charges.
- To let us know about any change which might affect your eligibility to continue making payments to the Pension Portfolio.
- To understand that as this is a long-term investment designed to provide benefits in retirement, you won't normally be able to access your pension pot before the normal minimum pension age (NMPA). This is currently age 55. From 6 April 2028 this will be age 57 unless you have a protected pension age. To find out more visit **aviva.co.uk/nmpa**

- To let us know promptly about any change which might affect the administration of your Pension Portfolio (for example, change of address or change of email address).
- To let us know immediately if you move to the USA or Republic of Ireland as all investments must be sold down within 30 days, except insured funds, commercial property and cash. If this isn't completed within 30 days, we'll sell down those investments and place them into your cash account. Any regular direct debits into affected funds will be redirected to your cash account. We will also sell down any reinvestments in investment types not available to you. You can hold existing structured products until maturity but you won't be able to invest in new ones.

Risks

We can't guarantee what your plan will be worth in the future. The value of investments in your plan can go down as well as up and you may get back less than the amount paid in.

- The level of benefits you could get at retirement may be less than shown in an illustration. This could happen for a number of reasons. For example, if:
  - you and/or your employer reduce or stop paying into your plan, even if payments are subsequently restarted
  - investment performance is lower than assumed
  - charges are higher than assumed
  - you choose to take your benefits before your selected retirement date
  - the rates used to calculate your benefits provide a lower pension income than those assumed in the illustration/annual statement. This might be because:
    - interest rates when you retire are lower than illustrated (only relevant where an annuity is selected)
    - life expectancy when you retire is greater than that assumed in the illustration
  - tax rules change.
- Inflation will reduce the spending power of your retirement benefits.
- If the interest received on the cash account is less than the Aviva charge, your money in cash will reduce in value.
- It's your responsibility to ensure there is sufficient cash in your cash account to pay any charges. If there's insufficient cash, we will automatically sell enough investments to pay any charges. For further information, please see the '**Charges**' section on **page 10**.
- If there isn't enough in your cash account to pay your income, your adviser will be able to choose on your behalf how to sell assets in order to do so (this is called 'disinvestment'). Any disinvestment will reduce the value of your investments.
- The price of some investments includes initial and yearly costs that will have an effect on your investments. Initial costs will have an immediate effect on the value of those investments so you should view such investments as medium to long term (typically more than five years).
- We aim to provide a wide range of investment choices at all times, but we reserve the right to withdraw or change any available investment options at any time. If this affects you we'll tell you.
- How funds take their charges has an impact on your investment growth or income. If charges are taken from your investment, its growth may be constrained. If charges are taken from your income, then that'll be eroded.
- From time to time, we may contact you and ask you to make decisions about your investments (for example, corporate actions). If you don't get back to us within the timescales we give you or there's insufficient cash in your cash account, we may be unable to act on your instructions.

- Depending on what you invest in, you may be subject to certain risks, e.g:
  - Investing in emerging or developing markets may carry higher risks as they may be subject to considerable fluctuations in value. Local dealing restrictions may also make certain securities difficult to sell.
  - Small company investments may not be as easy to sell as investments in larger companies, so the price fluctuations may be greater.
  - The value of any overseas investments will be influenced by the rate of exchange used to convert to sterling. This means that if sterling strengthens against the currency in which the underlying investments of the fund are made, the value of your investment will reduce (or the other way round).
  - If the underlying investments include property, it may take some time before we can sell your investment. In addition, the value of such investments will be a matter of the valuer's opinion at the time.
- As a result of trading practices, there's a possibility that the price of investments may rise or fall in the period between us receiving your instructions and the time of the transaction.
- You may not be able to sell or switch between funds if the fund manager concerned has deferred or suspended dealing in the fund at that time. This is more likely to occur during times of poor market conditions or when the fund manager can't easily convert the assets to cash, such as where the fund invests directly or indirectly in land or buildings.
- It may not be easy to sell investments such as commercial property. If you are invested in this type of asset, we may delay (where allowed by legislation and regulation) passing on the money until the property is sold.
- If you invest in some products with a fixed term, then you may not be able to access the monies until the end of that term, and even where you can, you may receive back significantly less than you invested. For further information, please see the product literature for the investment product in question, which you can get from your adviser.
- It's possible that the current favourable tax treatment of the Pension Portfolio may change in the future.

If you have any questions about this product, you should discuss them with your adviser.

Questions and answers

What is the cash account?

- The cash account is where your payments are held until the money has been invested and where we'll take payment for any Aviva charges.
- Money in the cash account is held in one or more client money bank accounts with external account providers of our choice and will receive interest.
- The interest rate payable is variable. The interest rate and account providers can change at any time. Interest is paid monthly.
- From no earlier than 17 August 2026, we'll retain a margin (a portion) of the interest received from the bank on cash balances and pass the remaining amount (if any) on to you. We only retain a margin where the interest rate received from the bank is positive. Where the interest rate is zero or negative, no margin is applied. The interest rate applied to your cash account won't be the same as the rate we receive from the bank. The margin we retain will vary in line with the current interest rate.
- You can find out more information in our cash interest factsheet at **aviva.co.uk/bank-interest-rates**
- We strongly recommend that you and your adviser regularly review the balance of your cash account.

What is the Aviva Platform?

- The Aviva Platform is a portfolio management service which allows you to combine investments in a range of underlying tax wrappers (for example, an Investment Portfolio, an ISA Portfolio and a Pension Portfolio).
- By consolidating your investments, you can easily review and plan your strategy to match your selected goals.
- You can potentially save time and money by seeing everything in one place, as well as benefiting from reduced fund management charges in a large range of investment funds.

Is this a stakeholder pension?

- No. A stakeholder pension has to meet minimum standards set by the Government for contribution levels, costs and terms and conditions. As the total annual charges on some funds may be higher than the Government standards, this isn't a stakeholder pension. For more information on our charges, please see the **'Charges'** section on **page 10**.
- A stakeholder pension might meet your needs at least as well as this plan.

Payments

How can I pay into my plan?

- Both you and your employer can pay into your Pension Portfolio.
- The minimum amount you can pay into your Pension Portfolio, including tax relief on your own payments, is:
  - a regular amount of £100 a month; or
  - an initial single payment of at least £5,000. You can make additional single payments of at least £1,000.
- You can make regular payments monthly, quarterly, half-yearly or annually.
- We'll take any regular payments by direct debit. You can make lump sum payments by cheque, direct credit or immediate electronic payments. For lump sum payments, we'll give you details of the number of units/shares we buy for you and the price we pay for each unit/share.
- We can only accept payments from your own funds which are eligible for tax relief. We claim tax relief on these payments. This means we're unable to accept new payments from age 75 although transfers may still be accepted. An employer paying into your Pension Portfolio would claim their own tax relief outside the plan.
- Please speak to your adviser if you're unsure about payment levels.

Can I stop, restart or change payments into my plan?

- Yes, you can stop, restart or change your payments at any time.
- There's no penalty for stopping or reducing your payments.
- Fewer and/or reduced payments will reduce the value of your plan at retirement.
- As long as you have investments or cash in your Pension Portfolio, charges will be taken from your plan. The charges may reduce the value of your plan.

If you're considering stopping, changing or restarting your payments, please request an illustration from your adviser.

Investments

Where will my payments be invested?

- Your Pension Portfolio lets you invest in an extensive range of investments, including:
  - insured funds
  - unit trusts
  - open-ended investment companies (OEICs)
  - investment trusts
  - exchange-traded funds
  - equities.
- These investments are available within our two investment options: Core and Choice, each with its own investment choices and charges. Your adviser will be able to give you more information.
- Along with your adviser, you can choose the investments in which you want to invest. The risk profile of your Pension Portfolio will depend on your choice of investments.
- The investments you and your adviser decide to invest in will dictate whether you're in the Core or Choice option. If you're in the Core option, you can only invest in insured funds from the list above. The other investment options listed are only available in the Choice option. This doesn't mean you're unable to invest in all of the above, it simply means we would automatically move you into the other option if your investment choices change in the future. There may be additional charges for the Choice option depending on the investments you choose. Please see the '**Charges**' section on **page 10** for more details.
- You can move between options as your needs change, so you're not restricted today or in the future.

- Your adviser may invest in one or more model portfolios for you. A model portfolio holds your selected investments in set proportions. Over time, as a result of varying investment performance, the proportions of investments in a model portfolio will change and your adviser may rebalance the investments accordingly. This will involve switching. Your adviser may also tell us to automatically rebalance the investments at a specified frequency or set levels. With your agreement, your adviser may outsource the management of a model portfolio to a discretionary investment manager. We invest any future payments in line with your chosen model portfolio(s). You can't hold structured products or commercial property in a model portfolio.
- If you haven't chosen any investments, we'll hold your payments in cash until otherwise instructed.
- If you want more information about the options and the investments available to you, you should speak to your adviser.

Can I change where my money is invested?

- Your adviser will need to make any changes to your investments for you.
- Your adviser can submit buy and sell instructions online. They can also create a range of buy and sell instructions by rebalancing your portfolio to your model portfolio(s). During rebalancing, your money won't be invested for a period of time and therefore won't be affected by any changes in market conditions. Please be aware that structured products and commercial property are excluded from rebalancing.
- Your adviser may buy or sell a fund or change investments which results in you moving to a different investment option. Your adviser will tell you if changes to your investment choices mean you move to the other investment option. We'll automatically move you if you choose an investment that's in the other investment option. Your charges will change if you change from one investment option to the other. If you move from the Core to the Choice option, you may have to pay more charges. If you move from the Choice to the Core option, you'll pay less in charges.
- In certain circumstances, we may need to delay payments, transfers and switching out of funds. This could, for example, be as a result of existing changes being made to your investments, poor market conditions or where it would lead to unfair treatment of other investors. The delay may be up to one month for most funds or up to six months if the fund manager can't easily convert the fund you're invested in to cash. This includes funds which are fully or partly invested in land or buildings. When we cancel the units after a delay, we'll use the unit price that applies at the end of the deferred period.
- We'll hold your cash on receipt in a client money bank account in line with the Financial Conduct Authority client money rules.
- You and your adviser can change your investments at any time.

For more information please see the Pension Portfolio Terms and Conditions.

Charges

What are the charges on my plan?

- The charges for the Pension Portfolio are designed to be totally transparent, so you can be clear at all times what the costs are. Your illustration shows the charges you'll be paying. There's also information about the charges in the **Pension Portfolio client brochure (LF10207)**. If you have any further questions or if you haven't already got a copy of this brochure, you should speak to your adviser.
- It's your responsibility to ensure there's sufficient cash in your cash account to pay charges due. When there is insufficient cash, we'll disinvest funds to create the additional cash needed to pay these charges. Any disinvestment for Aviva, adviser and Aviva commercial property charges will include an additional amount which is 10% of the charge due. This aims to cover any market movements between the disinvestment date and the charge date. If cash management isn't enabled on your Pension Portfolio, a £10 minimum disinvestment amount will apply. If cash management is enabled, we'll disinvest six times the value calculated, subject to a minimum amount of £60. This aims to provide sufficient cash to meet future charges, reducing the frequency of additional disinvestments.
- In certain circumstances, these investments may be sold after the charge has been taken.
- We won't automatically disinvest if you're only invested in funds which are in deferment or suspension, commercial property, structured products or exchange-traded instruments. If you're only partially invested in funds which are in deferment or suspension, commercial property, structured products and exchange-traded instruments, we'll disinvest from any other investments you hold.

Aviva charge

- We take an annual management charge (the Aviva charge) based on the value of your investments held in your Pension Portfolio.
- We'll deduct the Aviva charge from your cash account.
- The Aviva charge is deducted on a monthly basis and is calculated on a daily basis as a percentage of the average value of your Pension Portfolio on each day.
- From no earlier than the 17 August 2026, the Aviva charge won't apply to cash balances held in your cash account. Instead, for cash balances in your account we will retain a margin (a portion) of the interest received from the bank and pass the remaining amount (if any) on to you. Please see '**What is the cash account?**' on **page 7** for more information.

Fund management charges

- In addition to our charge, fund managers may also take a charge from the fund.
- Fund management charges will depend on the investments chosen. These charges may be shown as the ongoing charge figure (OCF), total expense ratio (TER), or for insured funds, simply the annual fund charge. These cover the charge made by the fund manager for managing the investment as well as expenses incurred by the fund. Please note these charges are variable and may change over time.
- You should ask your adviser for details of any fund management charges.

Commercial property charges - Choice option only (existing investments)

- Our nominated holder of commercial property, Curtis Banks, administers the investments in commercial property.
- The charges they take are outlined in their Terms and Conditions and Schedule of Fees, which you can get by contacting your adviser.

Equity dealing charges - Choice option only

- We use our nominated stockbroker to deal in equities.
- For trading in exchange-traded instruments, we may charge a fee per trade (per asset) taken from the cash account. In addition, we'll pass on any stamp duty reserve tax and London Stock Exchange charges to you, along with any PTM Levy. For further information on our equity dealing charges, please contact your adviser.

Structured product charges – Choice option only

- The provider of the structured product will take charges from the amount we invest on your behalf. This can either be an initial or ongoing charge (or both) and varies by plan or provider. Please see the structured product provider's guide for details.

Discretionary investment model charge

- If you're invested in a model portfolio managed by a discretionary investment manager (DIM), then the discretionary investment model charge will apply. You'll agree this charge with your DIM up front. This charge only applies to assets held within a discretionary investment model portfolio and is shown on your illustration and transaction history.

What is cash management?

- Cash management is an option your adviser can switch on for paying the Aviva, adviser and discretionary investment model charges. Your adviser will assess whether it's suitable for you based on the level of trading flexibility they require on your account. See '**What are the charges on my plan?**' earlier in this section for more details.

How much will the advice cost?

- You'll agree the cost of the advice you receive with your adviser. We'll deduct this amount on your behalf and pass it on to your adviser. You can see these costs in your illustration.

Pension transfers

Can I transfer other pension plans into this plan?

- You can transfer all or part of your existing uncrystallised benefits under a registered pension scheme into your Pension Portfolio. Any existing drawdown benefits need to be transferred in full. All transfers are subject to details set out in the Pension Portfolio Terms and Conditions. If you transfer from another plan, you can either:
  - re-register the underlying investments without selling the investments as long as the transferring scheme administrator agrees and we have the same investments on the Aviva Platform. It may not be possible to re-register all your existing investments, but if re-registering any investments, we'll let you know when we've completed the process; or
  - ask your existing plan manager to convert the investments to cash, then invest it with us. If you choose to do this, your money won't be invested for a period of time. This may mean that you won't be affected by any changes in market conditions.
- You can't transfer structured products into your Pension Portfolio.

Are there specific risks for transfers in?

You might get back less from this plan than you would've had from your other pension. It's important to consider if your other pension or any alternative new pension offers any valuable guarantees that this plan can't match.

- When you transfer a pension, there'll be a period when it's not invested. This is the time it takes your existing provider to transfer the value of your other pension to us. You may miss out on potential growth while the transfer takes place.
- If you transfer benefits from another pension scheme, you may be giving up valuable rights in that scheme. Some of these rights might be 'safeguarded benefits' and can't be replicated under the new scheme, so you need to be clear on what you may be giving up and be comfortable that the benefits of the transfer outweigh the loss of these benefits for you. There's no guarantee that what you receive at retirement will be greater than what you could have received from the previous scheme.
- If you're transferring benefits from an older company pension scheme if may provide safeguarded benefits, such as a defined benefit or other stated level of income, or a guaranteed annuity rate. You must take suitable advice before transferring this sort of pension if the transfer value is £30,000 or more. You may be charged for that advice. You may be losing valuable rights or benefits within the scheme, such as tax-free cash of more than 25% of the fund value. As a result of the transfer, you may not get higher benefits in the new scheme as the growth is defined by future investment returns and these and the retirement income from them can go down as well as up. You should consider all your options prior to transferring, to decide which is the best choice for you.
- Transferring pensions isn't right for everyone. It could be a complex decision and you need to consider the charges, fund ranges, any valuable benefits that could be lost and tax implications. So you need to make sure you're comfortable with your decision.
- This plan may have higher charges than your other pension.
- Some occupational pension schemes have to provide guaranteed benefits which replace a member's Additional State Pension (also known as the State Second Pension). These benefits are known as 'contracting-out' benefits and relate to periods of service prior to 6 April 2016. Any replacement benefits under this plan aren't guaranteed. Like the rest of the benefits from your plan, they'll depend on the way that the plan performs, and on the form of benefits you choose.

- We recommend you get ongoing advice from your adviser to help you on a continuing basis after the transfer. They'll review how your pension is performing in relation to your circumstances and recommend changes if they're needed.

Can I transfer this plan to another pension?

- You may be able to transfer all or part of your plan to another registered pension scheme or to a Qualifying Recognised Overseas Pension Scheme (QROPS), subject to their consent and the details set out in the relevant terms and conditions. You can do so at any time, including before or after you start taking your retirement benefits.
- A QROPS is an overseas pension scheme that has declared to HM Revenue & Customs (HMRC) that it meets certain requirements. These include that a QROPS must be a regulated pension scheme in its 'home' country and provide benefits similar to UK schemes.
- You may have to transfer the value as cash. Otherwise, you may be able to choose a unit transfer if the other scheme and the Aviva Platform have the same investments.
- During a cash transfer, your money won't be invested for a period of time and therefore won't be affected by any changes in market conditions. We don't charge for transferring, but there may be charges associated with the pension or re-registering underlying investments.
- If you do transfer the whole value of your plan to another pension, you can't continue to make payments into this plan.
- You can transfer the value of your post-retirement account to another provider separately from your pre-retirement account.
- It's not possible to partially transfer out from your post-retirement account. The account must be transferred in full.
- It's not possible to transfer structured products out of your Pension Portfolio.
- You should be aware that if you're in ill health when transferring a pension to another scheme and die within two years, an inheritance tax liability may arise which wouldn't have arisen had the fund not been transferred. You should seek advice from your adviser if this might impact you.

We don't make a charge for transfers, although other providers may. We reserve the right to pass on any third-party charge.

Changing your mind

Can I change my mind about this plan?

- Yes, you can change your mind within 30 days of us receiving your first payment. For regular payments, this will normally be on the first direct debit payment date you've given us. For single payments, your cancellation period will start when we receive the money and you've received a confirmation schedule from us. For transfers, we'll let you know when we've received the transfer money and your cancellation period will start from that date.
- We'll return the original amount of any regular payments invested in full.
- If you cancel your investment, we'll refund your initial single payment, less any amount by which your investments might have fallen in value due to market movements. If you decide to cancel and we receive any dividends from your investment during the cancellation period, we'll pay these to you, but only up to the value of your original single payment.
- If you're invested in structured products, you may get back significantly less than you initially invested.
- We won't return any adviser charge that has been taken.
- We won't refund any charges directly related to buying or selling investments.
- A tax-free lump sum can't be cancelled. You can cancel the designation to drawdown in the usual 30-day cancellation period, but you must then tell us what to do with the 75% which had been designated to drawdown (e.g. purchasing an annuity with us). This must be done within six months of the tax-free lump sum being paid to you. If you don't, then the tax-free lump sum payment becomes an unauthorised payment and will be subject to tax charges.
- If you change your mind once you've been paid your income drawdown benefits, they can't be paid back to us.
- You must tell us by telephone, email or in writing if you want to cancel. The contact details are in the '**Get in touch**' section on **page 25**.
- If you don't cancel within the 30 days, your plan and investment will continue as set out in these Key Features and the Terms and Conditions. You won't have the right to cancel at a later date.
- Please read the **Pension Portfolio Terms and Conditions (LF01064)** for full details on cancellations.

Can I cancel a transfer in?

- Yes, you have 30 days in which to change your mind, beginning from the date that you receive our confirmation that the transfer payment has been invested.
- If you cancel within 30 days, we'll pay back the lower of the amount received or the value when we receive your cancellation instruction, meaning less may be returned than was invested. We'll return the transfer payment to whoever paid it to us. **Note:** your existing provider may not accept it back or reinstate your benefits in their scheme. Your options then would be to transfer to another provider who is willing to accept it or reapply for a transfer to Aviva.
- We won't return any adviser charge that has been taken.
- If you wish to cancel, please contact us using the '**Get in touch**' details on **page 25**.
- If you don't cancel within 30 days, the investment will remain invested in accordance with the terms of your plan and won't be refunded.

Retirement benefits and options

How do I know how much my pension pot is worth?

- Once your Pension Portfolio is open, you can register for MyAviva, our online portal. Through MyAviva, you'll have 24-hour access to your account and be able to see exactly how your investments are performing. You'll also be able to see detailed transaction information. You'll be sent details about MyAviva when you open your account.
- We'll send you a statement four times a year, showing the value of your investments, together with any other product portfolio you hold on the Aviva Platform.
- Your investment choices directly drive whether you're in the Core or Choice option. Your statements will show you whether there's been any change in the option you're in.

What retirement benefits will I get?

- Your benefits at retirement will depend on your plan value and how you take them.
- Your plan value will depend on how much has been paid in, how long it's been invested for, the performance of your investments and our charges.
- Please see your illustration for an idea of what you might get. If you've not received an illustration, please ask your adviser.

How can I take my retirement benefits?

- You have a few options as to how you can take your retirement benefits. We'll write to you closer to your retirement date with further details.

For all the options you can normally take up to 25% of the value as a tax-free lump sum, and use the remaining part to receive taxable income from the option itself.

- How you take taxable income under each option is explained next. For more information on how retirement benefits are taxed, please see the **'Taxation'** section on **page 20**.
- Charges will continue to apply as explained in the '**Charges**' section on **page 10**. We don't currently make a separate charge for taking your retirement benefits. If this changes, we'll let you know.
- You can't take partial withdrawals from a structured product because it's a fixed-term investment. You'll have to cash in the whole investment if you want to take money out of a structured product before the end of the fixed term. If you want to do this, please contact us. The amount you get back will depend on the type of structured product you have invested in. Please bear in mind that you may not get back the amount you originally invested. For more information on structured products and how they work on the Aviva Platform, please read the **Aviva Platform guide for customers invested in Structured Products (LF10204)**. You can get this from your adviser.

Annuity option

- An annuity is a guaranteed income for life in addition to any tax-free lump sum you decide to take.
- You can buy an annuity from Aviva but not through the Aviva Platform. However, you could choose to buy an annuity from another provider. Shopping around could make a big difference to what you get. This is especially important if you have certain lifestyle and health factors, such as smoking.
- The income you get will also depend on the value of your retirement benefits, the prevailing annuity rates, the features of the annuity you choose and your age. Your illustration/annual statement shows the potential annuity you might get when you reach your retirement date.
- Once your annuity is set up, it can't be changed.

Lump sum option

- A lump sum lets you take the taxable part of your retirement benefits alongside the tax-free lump sum part in a one-off cash payment as and when you need it.
- There's no minimum amount that you can take as a lump sum.
- You can't set up regular lump sum payments.
- Taking out large lump sums in a tax year could move you into a higher tax band.
- Each lump sum you take will reduce what's available from your plan.
- Taking a lump sum will trigger the Money Purchase Annual Allowance (MPAA). Please see the '**Taxation**' section on **page 20** for more information.

Income drawdown options

- Income drawdown lets you take the tax-free lump sum part of your retirement benefits, while moving the taxable part to a post-retirement account and keeping it invested until you need income from it.
- Taking large income drawdown payments in a tax year could move you into a higher tax band.
- Each time you use this option, or subsequently take income drawdown payments, it will reduce what's available from your plan.
- Taking income drawdown payments may trigger the MPAA, as explained in the '**Taxation**' section on **page 20**.

Flexi-access drawdown

- You can choose to draw down any level of income your pension pot can support.
- There's no minimum amount that you can move to income drawdown.
- You can also take one-off withdrawals either alongside or instead of regular withdrawals. Payments are made on a gross of tax basis.
- You can take income drawdown payments as and when you need them and/or on a regular basis. You may also use your post-retirement account to buy an annuity at any time.
- If you choose to take an income through drawdown, you have the choice of single drawdown or phased drawdown:

Single drawdown

- You take up to 25% of your pension pot up front as a tax-free lump sum. You invest the remaining 75% and use it to pay your chosen taxable income amount.

Self-select phased income drawdown

- With the self-select phased income drawdown option, your adviser can create a mix of non-taxable and taxable income, tailored to your individual tax planning requirements. This is driven from your tax-free income requirement. You can invest any remaining crystallised funds for when you need them.
- Self-select phased income drawdown isn't available to capped drawdown clients – please see '**Capped drawdown**'.

Capped drawdown

- You can only access capped drawdown if you entered an agreement before 6 April 2015.
- You may transfer an existing capped drawdown agreement.
- You can choose to draw down the level of income you want within limits set by the Government Actuary's Department (GAD), in line with the capped drawdown rules.
- To remain in capped drawdown, you can't exceed the maximum GAD income figure during a 12-month period known as your pension year. Your pension year starts at the point you first take benefits.
- We must review your plan against the latest GAD limits set by HMRC at least every three years. Once you turn 75 we have to do this every year. GAD will set new levels of income during the course of your plan. Your adviser will be able to help you review your pension plan.

Can I convert from capped drawdown to flexi-access drawdown?

- You can convert from capped drawdown to flexi-access drawdown.
- You can't move from flexi-access drawdown to capped drawdown.
- Please see the **'Taxation'** section on **page 20** to understand the impact on your annual allowance.

Investment pathways

- Investment pathways prepare your post-retirement account for how and when you want to take your income in the future. Investment pathways provide an easier choice if you've decided not to take financial advice and if you're not confident in making your own investment decisions.
- Investment pathways are only available for the investment of your post-retirement account. You can only invest in one investment pathway at a time. If you choose an investment pathway, the whole post-retirement account must be invested in it.
- For more information on our investment pathways please see **Information about Aviva's investment pathways** online at **library.aviva.com/gn201187.pdf**

When can I take my retirement benefits?

- When your plan is set up, you'll tell us your chosen retirement age (the age at which you want to start drawing benefits). You may change this at any time.
- You can start taking your retirement benefits from the NMPA, even if you're still working. The NMPA is age 55 until 5 April 2028. On and from 6 April 2028 this will be age 57 unless you have a protected pension age. Depending on your circumstances you may be able to access your benefits earlier, such as when you have a protected pension age (visit **aviva.co.uk/nmpa** to find out more) or are unable to work due to ill health or incapacity.

What are the risks with lump sums and income drawdown?

- Any part of your plan left in your pre-retirement account after you use these options will continue to be invested. Its value isn't guaranteed, and it can go down as well as up. This is also the case for your post-retirement account until you take it as income.
- Your future income isn't guaranteed and your money could run out. If you take most of what's in your plan as lump sums and/or income drawdown payments and have no other provisions, this may reduce your ability to provide a sustainable retirement income, or provide for dependants in the future.
- If you withdraw high levels of income, there'll be less money to provide for dependants or to buy a lifetime annuity in the future, should you want to.
- The income you take may have an impact on any means-tested benefits you're receiving. You may want to discuss this with your adviser.
- If you take large lump sums, you may pay more tax than you expected.
- If your tax position isn't exactly as described, the income you get through our self-select phased income drawdown option may not match exactly what is shown on your illustration. This is because when you take income from your drawdown fund, we assume your tax rate applies to all of your taxable income.
- If HMRC notify us that your tax position has changed, your income payments may vary from what they were originally.
- There's a chance you may pay too much tax. If this happens, you'll need to complete a tax return to reclaim the overpayment.
- Eventually you could get less income through these options compared to an annuity.

Can I change my mind about lump sums and income drawdown?

- You can't change your mind about taking a lump sum.
- You can cancel the designation to drawdown in the usual 30-day cancellation period, but you must then tell us what to do with the 75% which had been designated to drawdown (e.g. purchasing an annuity with us). This must be done within six months of the tax-free lump sum being paid to you. If you don't, then the tax-free lump sum payment becomes an unauthorised payment and will be subject to tax charges.
- If you change your mind once we've paid your income drawdown, it can't be paid back to us.

Where could I get more information?

- For more information on all the options, please see **Your pension: your choices** online at **static.aviva.io/content/dam/document-library/adviser/retirementsolutions/fs01010c.pdf**
- There is further information and guidance available to you in the '**Further guidance**' section on **page 22**.

Life events

What happens if I want to change to another financial adviser?

- We'll follow your instructions if you decide to change your financial adviser. As an advised client you'll need a financial adviser to manage your Pension Portfolio.
- You can find information about financial advisers in your area through the independent website, **moneyhelper.org.uk/retirement-advice**

What if I no longer have a financial adviser?

- The Pension Portfolio is designed for customers who have a financial adviser, as it's an advised platform. If for any reason you're no longer being advised by your adviser, there are some restrictions and conditions you'll need to be aware of. Please see the **Pension Portfolio Terms and Conditions (LF01064)** for details.

What happens to my plan if I die?

- If you die before you're 75, we'll normally pay any benefits income tax free to your nominated beneficiaries, at the trustees' discretion (unless you have an Aviva Pension Trust, in which case the rules of that trust will apply).
- If you die on or after your 75th birthday, we can pay the full value of your remaining pension pot to a beneficiary (as defined in the terms and conditions), chosen at the discretion of the trustee.
- The beneficiary may be able to:
  - continue to receive benefits from the plan through income drawdown
  - buy a lifetime annuity (with another provider if for a nominated beneficiary)
  - take the remaining pension pot as a lump sum.
- The beneficiary must be eligible for an annuity or drawdown contract for benefits to be provided in the chosen form. If they aren't able to take out a contract, e.g. if they live outside the UK, we'll pay the benefits awarded to them as a lump sum.
- We can't make any changes to the investments until we've received authorised instructions. As money will remain invested, the value could go down as well as up during this time and it may be worth less than has been invested.
- Interest and the margin we retain will continue to be applied on cash while held in the cash account (see '**What is the cash account?**' on **page 7**). The remaining interest accrued by the deceased will be paid into the cash account and any investment distributions will continue to be received between the date of death and disinvestment.
- Please see the **Pension Portfolio Terms and Conditions (LF01064)** for what happens if you die while invested in commercial property. The outcome depends on a number of factors.

Taxation

Here is some information based on our interpretation of current tax legislation. Your tax treatment depends on your main place of residence as advised to us by HMRC and your other individual circumstances. Tax rules may change in the future.

What about tax when money is paid into my plan?

One of the biggest benefits of investing in a pension is that you can normally get tax relief from the government on pension payments you make into your plan.

Here's how tax relief works:

- You can currently save up to 100% of your UK taxable earnings into a pension to get tax relief.
- If you earn £3,600 or less, the maximum you can pay in is £3,600. This includes tax relief so your personal payment should be no higher than £2,880.
- For every 80p you pay in yourself, or we receive as a third-party payment not from your employer, the government gives an extra 20p in tax relief, boosting your payment to £1.
- If you pay tax at a rate above 20%, you can claim further tax relief through your self-assessment tax return.
- We can also accept payments from a business if you are employed by it, which includes being a director of a company. HMRC sets the maximum that can be paid in and still get tax relief.
- If you transfer money from another pension plan into this one, you won't get any tax relief on the transfer value as this money will already have benefitted from tax relief.

Is there a limit to what I can pay in before a tax charge is payable?

- HMRC puts a limit on the total amount that can be paid into all your pension arrangements each year before a tax charge is payable. This is the Annual Allowance. Anything paid in above the Annual Allowance may incur a tax charge.
- The Annual Allowance may be reduced if you earn more than the 'threshold income'. This is known as the Tapered Annual Allowance.
- A reduced annual allowance, known as the Money Purchase Annual Allowance (MPAA), will apply to you if you flexibly access your pension savings. If the MPAA applies, you'll have been informed of this by the provider of that pension.
- Transfer payments don't count towards your Annual Allowance.
- For further information, ask your adviser and/or go to **gov.uk/tax-on-your-private-pension/annual-allowance**

What about tax while my money is invested?

- You won't pay any personal tax on the growth of your fund, as long as your money stays invested. It can then grow free of UK income and capital gains tax.
- Some investment returns may be received by the fund with tax credits or after tax deductions which can't be re-claimed.
- Any investments the fund holds in overseas assets will be subject to the tax rules applicable to that country.

What about tax when I take my benefits?

- You can normally take up to 25% of your plan as a tax-free lump sum, taking what's left as taxable income. Annuity, income drawdown and lump sum payments are all taxed based on your highest income tax rate. If we don't know the right tax code for your drawdown income, an emergency tax code may be applied, meaning you may pay too much or not enough tax on these payments. If this happens, HMRC may update your tax code to either pay back any overpaid tax or claim back any underpaid tax.

Is there a limit on the amount of tax-free benefits I can receive?

Lump Sum Allowance and Lump Sum & Death Benefit Allowance

- HMRC places limits on the amount of tax-free benefits that can be taken from pension schemes. The limits apply to benefits payable during your lifetime and on death. Income tax is payable on benefits taken above these amounts.
- Your remaining allowances reduce each time you take benefits. Your personal allowances may be higher than the standard amounts if you've been granted one or more of the various types of protections by HMRC.

You can find more information on tax relief or your limits and allowances at **gov.uk/tax-on-your-private-pension**. If they're likely to affect you, please speak to your adviser.

What about tax when I die?

- If you die before age 75, there won't normally be any tax to pay. However, if the value of tax-free benefits taken from all your pensions during your lifetime and on death is more than the Lump Sum & Death Benefit Allowance (see above), the beneficiary may pay income tax on the excess. The beneficiary may also pay income tax if the lump sum death benefit is paid out more than two years after your death.
- If you die on or after age 75, the payment of benefits will be subject to tax. Depending on how benefits are taken, the tax could be either:
  - based on the beneficiary's income tax rate after any payments are added to their other earnings; or
  - 45%, if paid as a lump sum death benefit to a trust or your personal representatives. The beneficiary of a trust may claim the 45% tax charge paid as a deduction against their own income tax. Your adviser can provide further information.
- Until 5 April 2027, the value of your pension normally won't be included when calculating inheritance tax if your pension provider chooses who to pay it to, including your nominated beneficiary.
- From 6 April 2027, inheritance tax calculations will include most unused pension pots and death benefits.

Further guidance

Information available to you

- Pension Wise from MoneyHelper is a free, government-backed service offering clear, impartial and specialist guidance on your retirement options. If you're aged 50 or over, this service is available to you. Visit **moneyhelper.org.uk/pensionwise** or call **0800 138 3944** for full details of the service.
- You should discuss your options with your adviser before making a decision. If you no longer have one, you can find one at **moneyhelper.org.uk/retirement-advice**. Financial advisers charge for their advice.

How to complain

- If you've taken a product out with Aviva and are unhappy with the product or the service you received, you can contact us using the **'Get in touch'** details on **page 25**.
- We aim to resolve your complaint quickly. If we can resolve your complaint within three working days following the day we receive it, we'll write and confirm this to you, along with your rights to refer your complaint to the Financial Ombudsman Service (FOS).
- For some investments, for example overseas funds, you may not be entitled to complain to the FOS. Please refer to your fund provider's prospectus for more information about the dispute resolution procedure which applies to that fund. This information may also be within the key investor document or the fund factsheet.
- If we don't resolve your complaint within three working days of receiving it, we'll:
  - acknowledge your complaint promptly
  - assign a dedicated complaint expert to review your complaint
  - carry out a thorough and impartial investigation
  - keep you updated as to our progress
  - do everything we can to resolve things as quickly as possible; and
  - send you a written response within eight weeks of receiving your complaint. This will tell you the results of the investigation or explain why that's not possible.
- Where we can't resolve your concerns, or have been unable to resolve them within eight weeks, you may be able to ask the FOS to carry out an independent review. Whilst firms are bound by their decisions, you aren't. Contacting the FOS won't affect your legal rights. You can contact them on **0800 023 4567** or visit their website at **financial-ombudsman.org.uk**, where you'll find further information.

Solvency and financial condition report

- Every year we publish a Solvency and financial condition report which provides information about our performance, governance, risk profile, solvency and capital management. This report is available for you to read on our website at **aviva.com/investors/regulatory-returns**

Compensation

- The Financial Services Compensation Scheme (FSCS) has been set up to provide protection to consumers if authorised financial services firms (like Aviva Pension Trustees UK Limited) are unable to meet claims against them. Whether you qualify for any compensation under the FSCS will depend on the type of investments you hold and different limits of compensation apply to different types of investment. In some circumstances you might **not** receive any compensation under the FSCS.
- The availability of compensation depends on:
  - the type and structure of the investments you choose within your product
  - which party is unable to meet its claims; and
  - whether you were a UK resident at the time you took out the product.
- You wouldn't be eligible to make a claim for compensation for any funds that aren't authorised by the FCA or any overseas funds. Such funds may be covered by a local compensation arrangement. For more information on the arrangements applicable to your funds, please read the fund manager's fund literature, including the fund provider prospectus, the key investor document and the fund factsheet.

- Where compensation is available in relation to any of your investments, Aviva Pension Trustees UK Limited (the 'Trustee') will make a claim under the FSCS on your behalf.

Portfolio provider

- If you suffer a financial loss as a result of the portfolio provider, Aviva Pension Trustees UK Limited, becoming unable or unlikely to be able to meet its claims, you'll normally be able to claim under the investment section of the FSCS up to a maximum amount of £85,000 per person. Any other plans you hold with Aviva Pension Trustees UK Limited will also be subject to this overall limit.

Aviva's insured funds

- These funds are provided under a long-term contract of insurance. The Trustee will be eligible to claim compensation under the FSCS on your behalf should Aviva Life & Pensions UK Limited become unable to meet its claims. FSCS currently provides cover at 100% of the policy value without limit.
- If you choose one of our insured funds which invests in another collective investment fund (including Aviva Investors) or one that invests in a fund run by another insurer, the Trustee won't be eligible to make a claim under the FSCS, should that third party be unable to meet its obligations. In this situation, the value of your units will depend on the amount that we can recover from that third party.

Commercial property (existing investments)

- Commercial property is held within our commercial property provider's long-term insurance funds. In our view, the Trustee will be eligible to claim compensation on your behalf should our commercial property provider become unable or unlikely to be able to meet its claims and there's a valid claim under the compensation scheme. The Trustee should be eligible to claim 100% of the policy's fund value at that time on behalf of customers. If the overall claim is successful, then you should get back 100% of the value of your claim.

Collective investments and ETIs (including equities)

- Collective investments and ETIs are held by the Trustee directly for the customers who have a beneficial interest. If the individual fund manager becomes unable or unlikely to be able to meet its claims, the Trustee will be eligible to claim compensation under the FSCS, although this will be restricted to 100% of the first £85,000 held per person per fund management firm.
- In respect of equities, the assets are held by our nominated stockbroker in a nominee account and the Trustee should be able to make a claim under the FSCS, should the stockbroker be unable to return the assets for any reason. The protection provided would be 100% of the first £85,000 per person per stockbroking firm.

Structured products

- Whether any FSCS cover is available on a structured product and the level of cover available will depend on an individual structured product provided within the portfolio and its structure. You should check the relevant product terms and FSCS cover referenced in the structured product provider's literature.

Cash account

- For the cash account (a UK deposit account), the money is held within a client money account. Cash will be held in one or more client money bank accounts which receive interest. We will choose the provider of these accounts, and we may change those providers from time to time. This means the Trustee is normally entitled to claim up to £120,000 on behalf of each customer for each of these account providers. This limit will also take into account any other accounts you hold with these account providers. We'll hold your cash on receipt in a client money bank account in line with the Financial Conduct Authority client money rules. Go to **aviva.co.uk/bank-interest-rates** if you want current details about these account providers.

To find more information about the FSCS, including how to contact them via email and webchat:

Website: **fscs.org.uk**

Phone: **0800 678 1100** or **0207 741 4100**.

Potential conflicts of interest

- There may be times when Aviva Plc group companies or our appointed officers have some form of interest in the business being transacted. If this happens or when we become aware that our interests, or those of our officers, conflict with your interests, we'll take all reasonable steps to manage that conflict of interest. We'll do this in a way that treats all customers fairly and in line with proper standards of business.
- Where despite all efforts to manage a conflict of interest, the conflict of interest can't be prevented, we'll tell your adviser. They'll give you a copy of this disclosure before you commit to taking out this product or taking any investment action in relation to it. This is an important document and you should read it before making any investment decision.
- You can get a copy of our conflicts of interest policy from your adviser.

Customer status

- Aviva will treat you as a retail client. This means that you have the highest degree of protection available under the Financial Conduct Authority rules. This includes access to complaints and compensation procedures.

Suitability of product

- You'll have received advice from your adviser when you bought this product. This means that you benefit from the protection provided by the Financial Conduct Authority's rules advisers must follow when giving financial advice.

Terms and conditions

- This Key Features document is a summary of the Pension Portfolio.
- You should also see the full **Pension Portfolio Terms and Conditions (LF01064)**. You may already have a copy but if not, you can get it from your adviser or contact us directly.

Law and language

- Aviva and you have a free choice about the law that can apply to a contract. Aviva proposes to choose the law of England and Wales and, by entering into the contract, you agree that the law of England and Wales applies. Your contract will be in English and we'll always write and speak to you in English.

Financial services registered details

- Aviva Pension Trustees UK Limited is a company limited by shares. It's authorised by and regulated by the Financial Conduct Authority and is entered on the Financial Services register, number 465132, **register.fca.org.uk**.

Supporting firms and advisers

- We provide products and services to advisers and other firms designed to enhance the quality of the service they provide to their customer. This includes access to generic market commentary, training and guides to our products and service, insight and information including pricing and product matching tools and hospitality whilst attending meetings and training events.
- For further details of the services we've provided to your adviser, or if you have any questions, you can contact us using the '**Get in touch**' details on **page 25**.

Get in touch

Remember, your adviser will be your first point of contact.

If you have any questions, you can:

Call us on **0800 068 2170**

at the following times: **Monday to Friday 8.30am and 5.30pm.**

- We may record calls to improve our service.
- Calls may be charged and these charges will vary, please speak to your network provider.

Email us at **advisedplatform@aviva.com**

Write to us at **Aviva, PO Box 26957, Glasgow G2 9DS, United Kingdom.**

Need this in a different format?

Please get in touch if you'd prefer this key features (**LF01068**) in large print, braille, audio, or in a different colour.

Want to go paperless?

It's easy to go paperless and manage your documents online, meaning you won't have the inconvenience of storing paper copies.

By **registering with MyAviva**, you'll be able to view your documents instantly in your online Document Library instead of waiting to receive them by post.

Here's how - just a few simple steps

Simply log in or register for MyAviva by going to **myaviva.co.uk/register** or scan the QR code.

Once you've registered and logged into MyAviva, go into 'Your Account', then 'Your Profile', and under 'Preferences' click 'Edit' within the 'Paper or Paperless' box. Then simply choose which documents you'd like to manage online.

Please note, this service is only available to those who can access their documents online through MyAviva. There will be some documents which we always need to send to you by post.

MyAviva is owned and operated by Aviva Insurance Limited.

Aviva Wrap UK Limited.

Registered in England and Wales No. 4470008. Aviva, Wellington Row, York, YO90 1WR.
Authorised and regulated by the Financial Conduct Authority. Firm reference number 231530.
