10 June 2026

Your personal illustration to help you plan for retirement

keyfacts®

The value of your plan

Your transfer value at
10 June 2026 is

£25,488.91

Your transfer value is not
guaranteed.

Your current transfer value allows for any final bonus or unit price reduction that would have applied if you'd transferred to another plan or switched out of with-profits on 10 June 2026. The amount that we'll pay when you choose to move out of with-profits could depend on:

- whether you've reached the retirement date selected when your plan started and;
- whether you choose to take your pension benefits, transfer to a new plan or switch into other investment funds under this plan.

The way we calculate the amount payable in each of these circumstances could change in future. Please call us if you need more information about retirement and transfer values.

Your fund value at
10 June 2026 is

£24,472.11

Your fund value doesn't allow for any final bonus or with-profits unit price reduction that may apply if you transfer to another plan.

We've assumed no further payments will be paid.

Keyfacts statement

The Financial Conduct Authority (FCA) is a financial services regulator. It requires us, Standard Life, to give you this important information to help you to decide whether our Personal Pension Plan is right for you.

You should read this document carefully so that you understand what you are buying, and then keep it safe for future reference.

Financial advice

We recommend that you speak to a financial adviser about the options that are available to you.

Any payments or instructions given to us three working days before this date may not be included in this illustration.

What you could get back

Your pension pot could be:

£28,900

This could give an annual income for life before tax of:

£2,730

These figures are based on the assumed payments and investments shown in this document. We've used the assumed mid growth rates shown in the 'The investments you've chosen' section, and a retirement date of 12 April 2034.

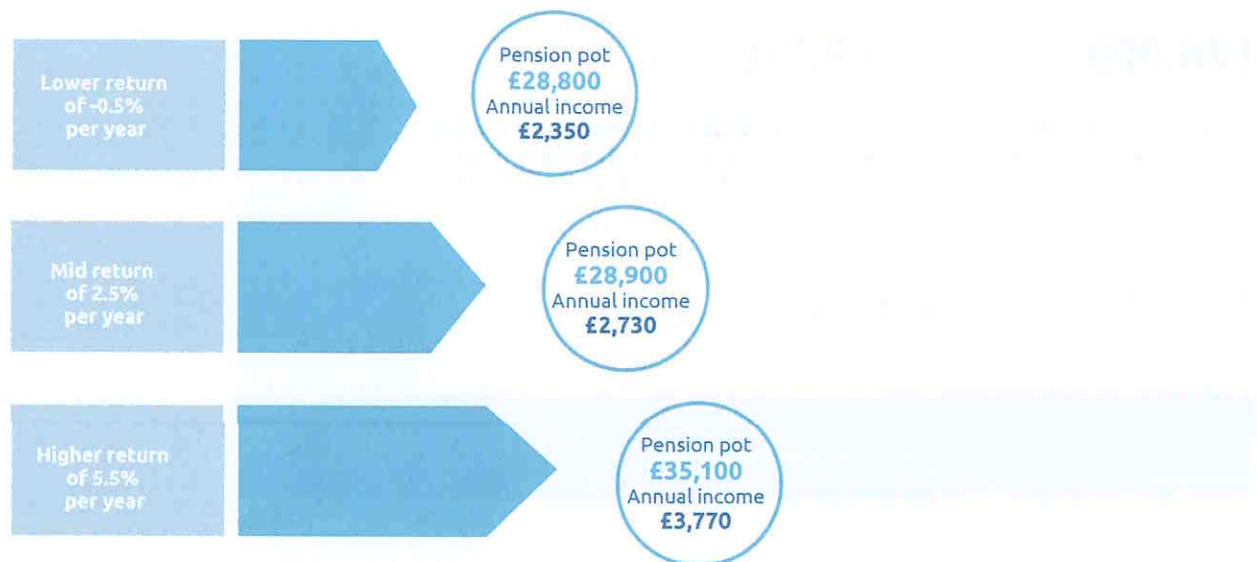

The investments you've chosen

In the table below we show the charges and assumed growth rates for the investments you've chosen. This is to help you check that these are the right investments for you.

Investment	Investment split	Assumed mid growth rate per year	Ongoing fund charge per year	Deductions each year for cost of guarantees (%)
Standard Life Pension With Profits Fund	100.00%	2.5%	1.00%	0.00%
Total	100%			

For investment in with-profits there is no explicit fund management charge but we make deductions for our costs, including the cost of guarantees provided under with-profits business. We've allowed for these deductions in your illustration using an indicative with-profits percentage charge shown in the 'ongoing fund charge per year' column in the table above. We're also showing you in the table, the current deductions each year for the cost of guarantees for your with-profits investments.

How your investment returns could affect what you get back

See the **How we calculate the figures** section for the assumptions used to calculate these figures.

For more information on the funds and investments you've chosen go to standardlife.co.uk/funds

Charges on your plan

The charges are determined by the investments you have selected and the terms of your plan. You can find more detail about the charges at standardlife.co.uk

How we calculate the figures

This illustration is based on a number of assumptions so your future pension benefits could be very different.

Pension benefit assumptions

When you retire, things will be more expensive than they are today. It's important to make sure your money will last as long as you need it to.

We've based the investment growth on the investments you've chosen and we've reduced them by 2% to allow for the effect of inflation. We've allowed for charges in our illustrated values.

What will be paid in

We've assumed no more payments will be made.

Please read 'Information about tax relief, limits and your pension'. You can find this at standardlife.co.uk/taxandpensions, or phone us for a paper copy.

Annuity assumptions

For the yearly guaranteed income shown in your personal illustration we've assumed:

- it starts on 12 April 2034
- payments are monthly
- payments won't increase
- it won't be paid to any dependant on your death
- if you die within the first five years, payments will continue until the end of the five year period
- you've not taken any tax free lump sum. You can normally take up to **25%** of your plan value as a tax free lump sum, however this will reduce your annual income

Your plan gives you options when you retire. We've illustrated what the benefits might be if you choose to buy a taxable annual income using your full fund value however, other options are available.

About your with-profits investment

If guaranteed benefits apply at the retirement date shown, and these are higher than the amounts we've worked out, we've allowed for these in your illustration. Guaranteed benefits usually apply at the retirement date chosen when your plan started provided you take your pension benefits at that date. You can find the specific circumstances where guarantees don't apply in your plan documentation.

For more information about how your with-profits investment works visit standardlife.co.uk/withprofits

Laws and tax rules

Laws and tax rules may change in the future. Your own circumstance and where you live in the UK will also have an impact on tax treatment.

A pension is a long-term investment and charges may vary. The value of investments can go down as well as up and you could get back less than you paid in.

0800 634 7476

Call charges will vary. You can find our most up to date opening times online.

Personal Pension Plan

Plan number	K176308000

10 June 2026

Dear Sir/Madam

Plan information

You have authority to receive information only.

Thank you for contacting us.

This pack contains the information you asked for. If any of the information needs to be updated, or if you'd like anything else, please just give us a call.

Please note, this pack is our standard initial response to authorities. We do not tailor this pack. Any information not covered in our initial pack will need to be requested separately, you can email us at service_ppp@standardlife.com, service_gp@standardlife.com, or call on the number above.

Please note illustrations will be issued separately to this pack.

Please note that we are unable to provide the requested illustrations to age 65, 67 and 75 as the member is already 67. We have included projections to age 75 as requested. Should you require an immediate retirement quote please contact us.

This is a Defined Contribution pension plan.

The plan is invested in with profits and has a valuable guarantee which would be lost if your client transferred out. The guaranteed amount will grow by at least 4% a year before charges.

Given current economic conditions, this is a great position for your client to be in. This type of guarantee is no longer available on the open market and you can't add to the amount already invested with this guarantee.

The guarantee applies to the fund value but not the transfer value of the plan.

Providing an overall Final Bonus of £ 1,016.80 attaching to the Pension With Profits Fund.

Please note these figures are not guaranteed. For information on the With Profits including Bonus History and the latest Investment Report, please visit www.standardlife.co.uk/withprofits

When your client comes to take their benefits our current practice is to pay the Retirement Value from age 55 (rising to 57 on 6th April 2028). For example, we currently pay a Retirement Value if you: Buy an annuity, or Take benefits as a lump sum by cashing in the plan, or Transfer to another plan as long as benefits start to be taken immediately.

Please see <https://library.standardlife.co.uk/wp110.pdf> for full details of our current practice for With Profits pay-outs, our practice may change in the future.

Adviser charging is not available on this type of pension plan.

A member cannot transfer and continue to pay contributions within this type of plan. If the value of the plan is transferred away from Standard Life, the plan will be terminated.

We do not allow partial transfers from this type of plan.

No bid offer spread.

100% allocation.

No loyalty bonus.

FUND AND CHARGE INFORMATION

The number of funds available varies by plan type, please see standardlife.co.uk/adviser. Within the Fund Filter section go to advanced fund search, select the product type and product name, here you can find daily fund prices, performance, charges, fund codes and all our Fund Fact sheets. For fund codes SEDOL, ISIN, or Citi Code information, The corresponding codes will be displayed under Codes and Sector. There is no platform charge.

Please note some funds have an additional fund management charge. This can be found by checking the fund guides on standardlife.co.uk/adviser (this also includes any additional expenses).

There is no limit of funds that the member can invest in at any time.

We will not normally make a charge for switching funds. However we reserve the right to charge for switches. We also reserve the right to charge if the switch involves a fund linked to the fund of an external fund manager and the manager charges us for the switch.

All Pension Input Periods closed on the 8 July 2015 as a result of the budget on the 8 July 2015. A new Pension Input Period opened on 9 July 2015 and ends on the 5 April 2016, after 5 April 2016, Pension Input Periods will be aligned to the Tax Year and cannot be changed in any circumstances.

Earmarking, Bankruptcy, or Pension Sharing Orders are attached: NO

Block Transfer: NO

For these contracts, if there was no block transfer, then there is definitely no Protected Tax Free Cash and the standard 25% will be available.

For instances of a block transfer, this is no guarantee of Protected Tax Free Cash, we will confirm if any is held.

The plan can accept transfers in.

No Guaranteed Annuity Rates

No Guaranteed Minimum Pension

No Guaranteed Fund at retirement.

No Reference Scheme Test

As confirmed above there are no Safeguarded benefits attached to this *members plan*.

This plan does not facilitate drawdown and would need to be transferred to a plan that does. Standard Life offer plans which this can be transferred into.

This plan does facilitate UFPLS.

Standard Life allow transfers via the Origo Options Transfer Service, however your client may be required to complete a UK Transfer form in order to proceed with your client transfer request to a UK provider. Copies of the form can be found here - library.standardlife.co.uk/gen2724.pdf

We've sent you important plan benefit information.

What we've sent you

- Plan information
- Plan value
- Transfer value
- Retirement value
- Payments summary
- The plan charges
- Pension Scams Leaflet

Important information about the values shown

Single payments, transfer payments or instructions given to us in the last three working days may not be included.

Phoenix Life Limited, trading as Standard Life, is registered in England and Wales (1016269) at 10 Brindleyplace, Birmingham, B1 2JB.

Phoenix Life Limited is authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority.

Phoenix Life Limited uses the Standard Life brand, name and logo, under licence from Phoenix Group Management Services Limited.

Personal details

Name	Mr Kevin Stead
Member number	880122143735
Date of birth	13 Apr 1959
Plan status	Inforce
Selected retirement date	12 Apr 2034
Address	2 Haigh Lane Haigh BARNSELEY South Yorkshire S75 4BZ
Dependant's name	Angela Jayne Stead

Plan information

Plan details

Plan start date	6 Apr 1987
Tax free lump sum available	£6,372.22
Written under trust	No
Life cover	No
Contribution protection benefit	No
Pension Scheme Tax Reference (PSTR) No	00605439RT

The Standard Life Appropriate Personal Pension Scheme is registered with HMRC under Chapter 2 of Part 4 of the Finance Act 2004.

Income drawdown

We offer products that allow your client to access their benefits flexibly. Please contact us for further details.

This shows how payments into this plan are currently invested.

Fund name	Split		
Fund name	Number of units	Unit price (p)	Value
Standard Life Pension With Profits Fund	1,652.293	1,481.1p	£24,472.11
Total value of your investments			£24,472.11

The returns basis is return of fund in the form of benefits. There's no sum assured.

What you could get at retirement

You don't have to take money out of your pension. You can continue to make payments, leave it invested and take it later.

Or you can choose to have flexible income (also known as income drawdown), a guaranteed income (an annuity), or you can take a lump sum or a combination of these. You can normally take up to 25% of your pension pot tax free.

You may need to transfer to another product to get your chosen option.

Taking your benefits

You can normally take the benefits from your plan if you are aged 55 or over. Call us on 0800 634 7476 to discuss this option further.

If you've got pension plans with a number of companies you can usually bring them together under a single plan, with Standard Life or another provider. It can make managing your pension investments easier and could save you money in charges. Check the benefits under your plans first, though, because you could lose them.

Plan value

The information here shows you the value of the plan at 10 June 2026.

Current fund value

Valuation date 10 Jun 2026

National Insurance Contribution Investment – 1

Fund name	Total amount in fund	Split	Units held	Unit price on 10 Jun 2026
Standard Life Pension With Profits Fund	£24,472.11	100.00%	1,652.293	1,481.1p
Total	£24,472.11			

This value doesn't allow for any final bonus or with profits unit price reduction that may apply on transfer to another plan. It may be different from the transfer value.

Valuation date 10 Jun 2026

Transfer value

This table shows the current transfer value for your funds on 10 June 2026.

Total transfer value	£25,488.91
----------------------	------------

The value(s) above are for illustration and aren't guaranteed.

Your current transfer value allows for any final bonus or unit price reduction that would have applied if you'd transferred to another plan or switched out of with profits on 10 June 2026. The amount that we'll pay when you choose to move out of with profits could depend on:

- whether you've reached the retirement date selected when your plan started and;
- whether you choose to buy a pension, transfer to a new plan or switch into other investment funds under this plan

The way we calculate the amount payable in each of these circumstances could change in future. Please contact us if you need more information about retirement and transfer values.

Please note:

- The current transfer value assumes that the last payment was paid when due. This amount isn't guaranteed.
- If a transfer is to be made we'll have to check that certain requirements can be met first. Sometimes a transfer may not be possible.
- We calculate the actual value after the close of business on each working day

Valuation date 10 Jun 2026

Retirement value

From payments to your plan	£25,488.91
----------------------------	------------

The retirement value quoted is for illustration only and isn't guaranteed.

-  You can find out more about our funds on our website [standardlife.co.uk/online-services](https://www.standardlife.co.uk/online-services)
-  Some of your funds are linked to external investment managers. These may include an additional charge in the unit price.

If you need a quotation of retirement benefits, please contact our Claims department on 0800 634 7476.

Additional plan value details

The amount we'll pay for the with profits part of your plan may depend on when you move out of with profits and what you decide to do.

The current retirement value is the amount available to you if you were to:

- take a guaranteed income (an annuity)
- take a flexible income immediately (drawdown)
- take your pension as a lump sum
- take a combination of these options

The current transfer value is the amount available for you if you were to:

- transfer to another pension plan (with Standard Life or another provider) but aren't taking any retirement benefits immediately
- switch into other investment funds

The way we calculate the amount payable in each of these circumstances could change in future. Please contact us if you need more information about retirement and transfer values.

www.standardlife.co.uk

Phoenix Life Limited, trading as Standard Life, is registered in England and Wales (1016269) at 10 Brindleyplace, Birmingham, B1 2JB.

Phoenix Life Limited is authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority.

Phoenix Life Limited uses the Standard Life brand, name and logo, under licence from Phoenix Group Management Services Limited.

Payment summary

Payments from 6 April 1987 to 10 June 2026

The payment summary includes National Insurance Contributions (NICO) payments received for Contracting Out of the state second pension. Contracting Out was abolished on 6 April 2012 but NICO payments are shown here for historical accuracy.

This table shows all contributions and other payments from 6 April 1987 to 10 June 2026.

All payments shown are the gross amounts which have been made to your pension. Figures displayed under "Net payment amount" show the payment amount before any tax benefit was applied.

Date	Contribution or payment type	Gross payment amount	Net payment amount
5 Apr 1988	NI contributions	£4,466.58	£4,466.58
Total		£4,466.58	£4,466.58

Annual allowance

The annual allowance is the total payments that you, your employer and any third party can make across all your pension plans (excluding transfer payments), which are eligible for tax benefits. Go to our 'Information about tax relief, limits and your pension' guide (GEN658) lib.standardlife.com/library/uk/gen658.pdf for more information or we can send you a copy.

Plan charges

The product charges for this plan are:

 These charges aren't guaranteed and may change.

Fund management charge

We apply various charges to the funds you invest in through your pension. These charges will vary depending on the funds you've chosen. You can view the fund management charge for your investment linked funds online at: standardlife.co.uk/c1/funds/how-are-my-funds-doing.page or you can contact us for our guide 'How to choose the right investment options for your pension'.

For your with profits investments there's no explicit Fund Management Charge or additional expenses. However, we make deductions for costs and charges, including the cost of guarantees provided by with profits business. These deductions, which may vary, may affect the proceeds you receive from your plan, although they'll not reduce any guaranteed benefits.

There are discounts applied to your plan. The annual rate of the discount, based on the most recently applied monthly reduction for this plan, is 0.211%.

Fund switch charge

We'll not normally deduct a charge for switching funds, however we reserve the right to charge if a switch involves an externally managed fund and the manager charges us for a switch.

----------------------	------------

The value(s) above are for illustration and aren't guaranteed.

Your current transfer value allows for any final bonus or unit price reduction that would have applied if you'd transferred to another plan or switched out of with profits on 11 June 2026. The amount that we'll pay when you choose to move out of with profits could depend on:

- whether you've reached the retirement date selected when your plan started and;
- whether you choose to buy a pension, transfer to a new plan or switch into other investment funds under this plan

The way we calculate the amount payable in each of these circumstances could change in future. Please contact us if you need more information about retirement and transfer values.

Please note:

- The current transfer value assumes that the last payment was paid when due. This amount isn't guaranteed.
- If a transfer is to be made we'll have to check that certain requirements can be met first. Sometimes a transfer may not be possible.
- We calculate the actual value after the close of business on each working day

Valuation date 11 Jun 2026

Retirement value

From payments to your plan	£25,490.64
----------------------------	------------

The retirement value quoted is for illustration only and isn't guaranteed.

- i** You can find out more about our funds on our website [standardlife.co.uk/online-services](https://www.standardlife.co.uk/online-services)
- i** Some of your funds are linked to external investment managers. These may include an additional charge in the unit price.

If you need a quotation of retirement benefits, please contact our Claims department on 0800 634 7476.

Additional plan value details

The amount we'll pay for the with profits part of your plan may depend on when you move out of with profits and what you decide to do.

The current retirement value is the amount available to you if you were to:

- take a guaranteed income (an annuity)
- take a flexible income immediately (drawdown)
- take your pension as a lump sum
- take a combination of these options

The current transfer value is the amount available for you if you were to:

- transfer to another pension plan (with Standard Life or another provider) but aren't taking any retirement benefits immediately
- switch into other investment funds

The way we calculate the amount payable in each of these circumstances could change in future. Please contact us if you need more information about retirement and transfer values.

Payment summary

Payments from 6 April 1987 to 11 June 2026

The payment summary includes National Insurance Contributions (NICO) payments received for Contracting Out of the state second pension. Contracting Out was abolished on 6 April 2012 but NICO payments are shown here for historical accuracy.

This table shows all contributions and other payments from 6 April 1987 to 11 June 2026.

All payments shown are the gross amounts which have been made to your pension. Figures displayed under "Net payment amount" show the payment amount before any tax benefit was applied.

Date	Contribution or payment type	Gross payment amount	Net payment amount
5 Apr 1988	NI contributions	£4,466.58	£4,466.58
Total		£4,466.58	£4,466.58

Annual allowance

The annual allowance is the total payments that you, your employer and any third party can make across all your pension plans (excluding transfer payments), which are eligible for tax benefits. Go to our 'Information about tax relief, limits and your pension' guide (GEN658) lib.standardlife.com/library/uk/gen658.pdf for more information or we can send you a copy.

Plan charges

The product charges for this plan are:

 These charges aren't guaranteed and may change.

Fund management charge

We apply various charges to the funds you invest in through your pension. These charges will vary depending on the funds you've chosen. You can view the fund management charge for your investment linked funds online at: standardlife.co.uk/c1/funds/how-are-my-funds-doing.page or you can contact us for our guide 'How to choose the right investment options for your pension'.

For your with profits investments there's no explicit Fund Management Charge or additional expenses. However, we make deductions for costs and charges, including the cost of guarantees provided by with profits business. These deductions, which may vary, may affect the proceeds you receive from your plan, although they'll not reduce any guaranteed benefits.

There are discounts applied to your plan. The annual rate of the discount, based on the most recently applied monthly reduction for this plan, is 0.211%.

Fund switch charge

We'll not normally deduct a charge for switching funds, however we reserve the right to charge if a switch involves an externally managed fund and the manager charges us for a switch.

11 June 2026

Your personal illustration to help you plan for retirement

keyfacts®

The value of your plan

Your transfer value at
11 June 2026 is

£25,490.64

Your current transfer value allows for any final bonus or unit price reduction that would have applied if you'd transferred to another plan or switched out of with-profits on 11 June 2026. The amount that we'll pay when you choose to move out of with-profits could depend on:

- whether you've reached the retirement date selected when your plan started and;
- whether you choose to take your pension benefits, transfer to a new plan or switch into other investment funds under this plan.

The way we calculate the amount payable in each of these circumstances could change in future. Please call us if you need more information about retirement and transfer values.

Your fund value at
11 June 2026 is

£24,473.76

Your transfer value is not
guaranteed.

Your fund value doesn't allow for
any final bonus or with-profits
unit price reduction that may
apply if you transfer to another
plan.

We've assumed no further payments will be paid.

Keyfacts statement

The Financial Conduct Authority (FCA) is a financial services regulator. It requires us, Standard Life, to give you this important information to help you to decide whether our Personal Pension Plan is right for you.

You should read this document carefully so that you understand what you are buying, and then keep it safe for future reference.

Financial advice

We recommend that you speak to a financial adviser about the options that are available to you.

Any payments or instructions given to us three working days before this date may not be included in this illustration.

What you could get back

Your pension pot could be:

£28,300

This could give an annual income for life before tax of:

£2,590

These figures are based on the assumed payments and investments shown in this document. We've used the assumed mid growth rates shown in the 'The investments you've chosen' section, and a retirement date of 13 April 2033.

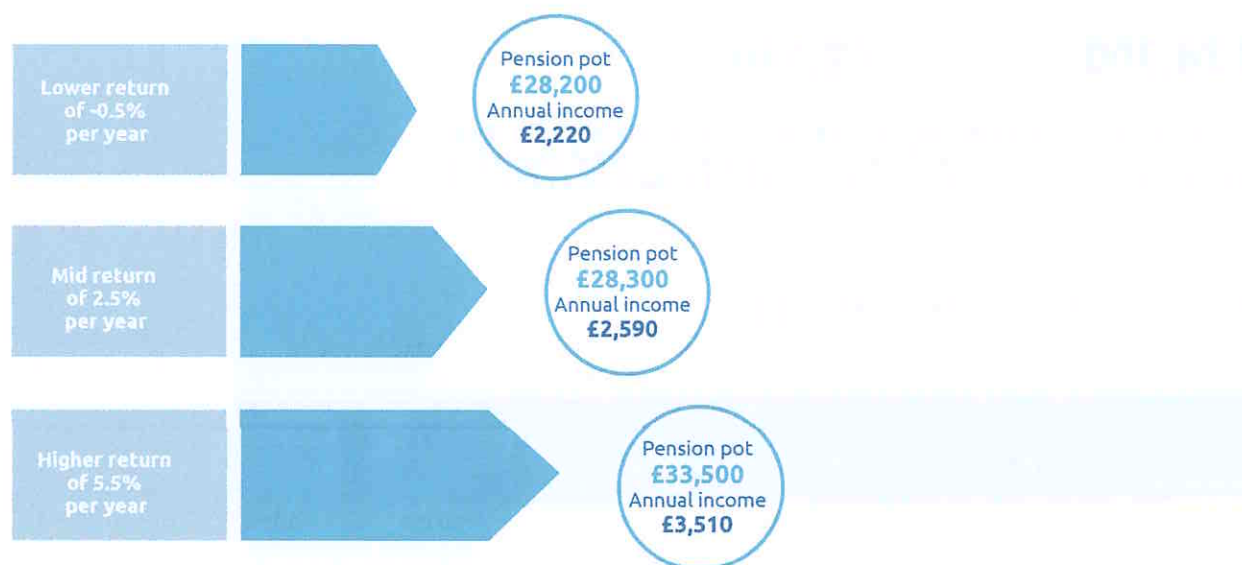

The investments you've chosen

In the table below we show the charges and assumed growth rates for the investments you've chosen. This is to help you check that these are the right investments for you.

Investment	Investment split	Assumed mid growth rate per year	Ongoing fund charge per year	Deductions each year for cost of guarantees (%)
Standard Life Pension With Profits Fund	100.00%	2.5%	1.00%	0.00%
Total	100%			

For investment in with-profits there is no explicit fund management charge but we make deductions for our costs, including the cost of guarantees provided under with-profits business. We've allowed for these deductions in your illustration using an indicative with-profits percentage charge shown in the 'ongoing fund charge per year' column in the table above. We're also showing you in the table, the current deductions each year for the cost of guarantees for your with-profits investments.

How your investment returns could affect what you get back

See the **How we calculate the figures** section for the assumptions used to calculate these figures.

For more information on the funds and investments you've chosen go to standardlife.co.uk/funds

Charges on your plan

The charges are determined by the investments you have selected and the terms of your plan. You can find more detail about the charges at standardlife.co.uk

How we calculate the figures

This illustration is based on a number of assumptions so your future pension benefits could be very different.

Pension benefit assumptions

When you retire, things will be more expensive than they are today. It's important to make sure your money will last as long as you need it to.

We've based the investment growth on the investments you've chosen and we've reduced them by 2% to allow for the effect of inflation. We've allowed for charges in our illustrated values.

What will be paid in

We've assumed no more payments will be made.

Please read 'Information about tax relief, limits and your pension'. You can find this at [standardlife.co.uk/taxandpensions](https://www.standardlife.co.uk/taxandpensions), or phone us for a paper copy.

Annuity assumptions

For the yearly guaranteed income shown in your personal illustration we've assumed:

- it starts on 13 April 2033
- payments are monthly
- payments won't increase
- it won't be paid to any dependant on your death
- if you die within the first five years, payments will continue until the end of the five year period
- you've not taken any tax free lump sum. You can normally take up to **25%** of your plan value as a tax free lump sum, however this will reduce your annual income

Your plan gives you options when you retire. We've illustrated what the benefits might be if you choose to buy a taxable annual income using your full fund value however, other options are available.

About your with-profits investment

If guaranteed benefits apply at the retirement date shown, and these are higher than the amounts we've worked out, we've allowed for these in your illustration. Guaranteed benefits usually apply at the retirement date chosen when your plan started provided you take your pension benefits at that date. You can find the specific circumstances where guarantees don't apply in your plan documentation.

For more information about how your with-profits investment works visit [standardlife.co.uk/withprofits](https://www.standardlife.co.uk/withprofits)

Laws and tax rules

Laws and tax rules may change in the future. Your own circumstance and where you live in the UK will also have an impact on tax treatment.

A pension is a long-term investment and charges may vary. The value of investments can go down as well as up and you could get back less than you paid in.
