Past performance is not a guide to future performance.

* With-Profits performance is net of tax and before charges and the effects of smoothing. The returns shown are for the main asset pool in our With-Profits Sub-Fund, which is relevant to the vast majority of our customers.

** With-Profits performance is gross of tax and before charges and the effects of smoothing. The returns shown are for the main asset pool in our With-Profits Sub-Fund, which is relevant to the vast majority of our customers.

*** ABI UK – Mixed Investment 20-60% Shares – The Association of British Insurers (ABI) has a classification system whereby the performance of investment-linked funds that have similar asset allocations are grouped together to give an average performance figure. This is known as the sector average. It's important to note that some if not all of the Funds comprising this sector average will already have fund management charges deducted from their performance.

2

How strong is the With-Profits Fund?

The Prudential Assurance Company Limited With-Profits Fund is the largest With-Profits Fund in the UK and is financially very strong.

The total level of assets backing the With-Profits business in the Fund was £119.2bn at 30 June 2024.

3

What is the current asset mix of the fund?

At 31 December 2024 the main asset pool within The Prudential Assurance Company Limited With-Profits Fund had the following asset allocation.

UK Equities	10.1%
Overseas Equities	26.9%
Property	13.2%
Alternative Assets	15.0%
Fixed Interest	29.8%
Cash & Receivables	5.0%

Source: Prudential. The 'Alternative Assets' category includes non-listed equities, investments in specialist vehicles and private assets which give an exposure similar to those of the listed equity markets.

On 1 April 2021, the Scottish Amicable Insurance Fund (SAIF) merged with the Prudential With-Profits Sub Fund. Therefore, the same asset allocations now also apply to the assets backing the former Scottish Amicable Life Assurance Society business.

We regularly review asset allocations and they may vary from time to time, but they will, at all times, be consistent with the Fund's objectives.

Some of our products also offer access to the other asset pools which have different asset mixes to those shown above.
